* TRANSFER SCHOLARSHIP BROCHURE *
* 1988-89 ACADEMIC YEAR *
****

This summary, prepared on behalf of the Emphasis on Excellence (Honors) Program, is based on information received from colleges and universities as of October 2, 1987 (Revision G). Direct inquiries, corrections and updates to Dr. George Emerson, Honors Program Director, M-DCC South Campus, 11011 S.W. 104 Street, Miami, FL 33176 (305-347-2889).

It is strongly suggested that both admission and financial aid applications to transfer institutions be submitted by January of the academic year PRIOR to the Fall or Winter term of the year you plan to transfer. So, if you wish to enroll in the August 1988 or January 1989 term, you should submit your application no later than January 1988. Financial aid applications are sometimes available from universities and your campus Financial Aid office as early as December. You will need to obtain admission applications before that and apply for admission because you must be admitted to the transfer university to which you are applying before your application for financial aid can be considered by the university.

Be aware that colleges and universities have early priority deadlines when applying for financial aid. Applications for financial aid received after priority deadlines are processed on a "first-come, first-served" basis. Most priority deadlines hold true whether the student enrolls for the semester that starts in August or January of the next academic year.

Students planning to attend the University of Florida are advised to file "Gator Aid" as early as possible, because all financial aid to UF is granted on a "first-come, first-served" basis after January 1. Financial aid applications to state universities can be obtained from campus Financial Aid offices or by writing directly to the university you plan to attend.

For academic advisement, go to your campus Academic Advisement Department, which has counselors and advisement manuals designed to provide up-to-date transfer information. Your Miami-Dade AGIS report, available from the registrar or academic advisor, is another valuable source of information regarding which courses to take. Seek assistance from your counselor/advisor. Students planning to apply to limited access programs should take special note of course requirements and deadlines. Also, be alert to notices of periodic visits to your campus by university representatives. They come to talk with students, answer questions, and provide general on-site advisement. If you plan to visit your transfer university, be sure you always call ahead for an appointment and take your transcripts with you! You should also write to the department and school offering the program you are interested in

to obtain further scholarship information and to learn which second year courses will best prepare you for transfer.

If you are interested in one of the scholarships awarded by Miami-Dade to attend a four-year institution, you must also complete a Miami-Dade Transfer Scholarship Application, which is available from the M-DCC Emphasis on Excellence (Honors) office of Financial Aid office. These applications for transfer scolarships are submitted separately from all other applications and often have earlier submission deadlines. This procedure may vary among campuses and the student should check with the Emphsais on Excellence and Financial Aid offices at the campus he is attending.

Students enrolled in the College Honors Program (CHP) have elected to take a more rigorous course of study and should see their campus Emphasis on Excellence (Honors) Coordinator to take full advantage of transfer benefits. Barry University, Florida State, and the University of Miami, among many colleges and universities, give special consideration in awarding scholarships to CHP graduates.
